III. Past Performance Indicators

Select either Yes or No in response to the questions below.

Category	Indicator	Yes	No	Definition
1 Grant termination	Has your organization terminated a grant prior to the conclusion of the PoP established by the FOA you applied for except for unanticipated circumstances beyond the reasonable management control of the grant recipient (e.g., natural disaster)?			A termination is defined as an action initiated by either the grant recipient or the awarding entity that terminated the grant prior to the conclusion of the PoP.
2 High-risk designation or drawdown restriction	Has your organization been designated as high risk by a grantor, or met the grantor's criteria for performance-based high-risk designation? --OR-- Has your organization been placed on a drawdown restriction?			A grant recipient may be considered "high risk" if they fail or are unable to comply with statutes/laws, regulations, or the terms and conditions of the federal award. Grantors establish performance-based risk in policy, the FOA, and/or the terms and conditions of award. A drawdown restriction requires payments to the grant recipient on a reimbursement basis, rather than advance payments.
3 Unexpended funds (>10%)	Did your organization have unexpended funds exceeding 10% of planned expenditures?			Unexpended funds exceeding 10% of planned expenditures for the PoP (if completed) or for the most recent operating year/program year (operating for at least 12 consecutive months). <i>Example:</i> The organization has a PoP consisting of three funding years (FY). It received \$500,000 in FY1 and \$400,000 in FY2 for a total of \$900,000. If at the end of FY2, the organization has \$90,000 or more of unexpended or "carryover" funds, the answer to this question is "Yes". (10% of \$900,000 = \$90,000)

Category	Indicator	Yes	No	Definition
<p>4 Timeliness of Performance reports or Financial reports</p>	<p>Did your organization fail to submit required performance documents on time? --OR-- Did your organization fail to submit required financial documents on time? Required financials include closeout documentation, if applicable.²</p>			<p>“On time” for performance documents means it was submitted to the grantor by the reporting deadline.</p> <p><i>Example:</i> Performance reports are due no later than 30 days after the end of the quarter. If Quarter 4 ends on June 30; the report must be submitted to the grantor no later than July 30. If the organization submitted the report on July 1, the answer to this question is “Yes”.</p> <p>“On time” for financial documents is defined as submitted to the grantor in the financial system of record by the reporting deadline.</p> <p><i>Example:</i> SF-425 Federal Financial Reports (FFRs) are due no later than 30 days after the end of the quarter. If Quarter 1 ends on September 30, the report must be submitted to the grantor no later than October 30. If the organization submitted the report in the system of record on October 31, the answer to this question is “Yes.”</p>

² Closeout requirements are defined in [eCFR :: 2 C.F.R. 200.344 -- Closeout](#).

DOL will examine [GrantSolutions](#)³ grant history and notes, quarterly performance reports, the [Payment Management System](#)⁴ and other grants management repositories to score Category C applicants. All other applicants will receive points based on their responses in Section II and III.
