How to Apply for a VETS Grantee Reporting System (VGRS) Account

August 19, 2026

How to Request VGRS Access

Requesting VGRS access requires a multi-part process:

1. Prerequisite: Login.gov account setup
Note: This portion is performed externally on the Login.gov platform. Any issues at this level must be addressed via their Help Center or Contact Us pages.
2. VGRS registration request: see New User Registration Guide
3. VGRS registration decision: Grant Officer's Technical Representative (GOTR) approves or denies the registration request
4. Grantee staff user management: GOTR assigns the user to a Grantee Organization and Grant Number(s) as requested

Completing the first three steps will allow you to log into VGRS, but you won't be able to view or edit your grant information until step 4 is completed.
